Additional Comments

Arrived at 3:05 pm and called Monterey Park Police Department and gave them information about the theft. I was told they just had an emergency and would call me when they are on the way. Called police department 2nd time at 4:15 pm and the police are still out on emergency calls and not available. I canceled reporting theft at this time

as unable to verify how long wait time would be. I had to fill in Police Officers name, badge, case number and check that the report was added to NCIC Database even though it was not completed. Please see comments above. Second visit to complete filing report with police department. I met with the police at Home Depot and gave them the paperwork I received on the equipment and trailer to file a stolen property report (see attached photos of report and card with officer, file # and date). They were able to find the information on the trailer with the VIN # and added it to their database as stolen. They were unable to add the equipment to their database as stolen as they need more information on the equipment (such as a VIN#). They said to call with any further information Home Depot has on the equipment. They called the # on the rental contract and were unable to reach the the person who rented the equipment and they will follow up.
